

## ACTIVE ON-DEMAND RELEASES FULL TRUCKLOAD UPGRADE

### *APT Version 3.3 Software Release Delivers Significant New Functionality to Thousands of End Users*

**Belleville, Michigan, November 19, 2009** – Active On-Demand has deployed the second major Full Truckload upgrade to its leading APT™ transportation management Software as a Service (SaaS) application. Continuing Active On-Demand's leadership role in the unscheduled transportation marketplace, this Full Truckload release further enhances the company's rich multi-modal transportation service lines that also include air charter, ground expedite, and air freight.

“This Full Truckload release demonstrates Active On-Demand's commitment to delivering cost competitive options to our customer base,” stated Chris Healy, the company's Chief Executive Officer. “Our continual investment in customer-driven technology provides our clients with the maximum number of options to balance cost and service quality on every shipment.”

ATK Launch Systems, located in Corrine UT, is the world's top developer of rocket propulsion systems and for the past year has been an Active On-Demand Full Truckload customer. “Active On-Demand has delivered upon their promises of improved transportation visibility and reduced costs,” said ATK's Roger Cooper, Logistics Analyst. He added, “For the past year our transportation benchmarks show that our Full Truckload transportation costs have been reduced by 24%. The APT portal facilitates competitive bidding that provides us with improved visibility, operational efficiencies and cost reductions.”
